RhinoRoof®

U20/SL SYNTHETIC ROOFING UNDERLAYMENTS

RhinoRoof® Synthetic Roofing Underlayment is the ideal choice for your roofs secondary layer of protection. RhinoRoof is made by InterWrap®, the leading manufacturer of synthetic underlayments, so you can rest assured that you will be installing one of the highest quality underlayments available.

With RhinoRoof your roof will benefit from over twelve years of industry research and development.

- Rest assured knowing your underlayment is covered by a leading manufacturers 20 year warranty*
- RhinoRoof provides a lasting secondary layer of protection against wind driven rain, installation blow-offs, hail storms and other violent acts of Mother Nature
- Proven performance – RhinoRoof is fast becoming the synthetic underlayment of choice for professional roofing contractors
- Increase the true life of your roof – RhinoRoof does not break down, dry out and degrade like traditional asphalt felt products
- RhinoRoof is 100% recyclable
- Reduce your liability - ensure workers on your roof have a safer walking surface
- Wider and longer rolls offer fewer horizontal and vertical seams on your roof which reduces the number of potential leaks
- Up to 8 times stronger than #30 felt!
- RhinoRoof can be left exposed to dry-in your home for up to 60 days. This allows for more flexibility in scheduling your primary roofing install
